

BUGS! BUGS! BUGS!

Find the tick by crossing out all the other bugs.

- 1 Insects usually have six legs and antennae. Some insects have wings. Cross out all the insects that have:
 - ▶ wings
 - ▶ six legs
 - ▶ antennae
- 2 Ticks have 8 legs and are part of the spider family. Cross out all the bugs that have more than 8 legs.
- 3 Ticks don't spin a web but spiders do. Cross out all the bugs that spin a web.
- 4 Congratulations, you found the tick! Circle it!
