

Game 1: Badge of Knowledge

What should you do if you suspect someone is having an opioid overdose and needs naloxone?

Task: Correctly identify the 3 steps you should take in order. 1,2,3.

Leave the scene.

Call 911 or your local emergency number right away!

Send your friend home.

Administer naloxone if you have it.

Stay with your friend until help arrives.

1) Call 911 or your local emergency number right away!
2) Administer naloxone if you have it.
3) Stay with your friend until help arrives.

The *Good Samaritan Drug Overdose Act* is a law that protects people who seek help during an overdose. The Act aims to reduce the fear of getting in trouble if police respond to an overdose (even if you have taken a drug or have some on you) and encourages people to help save a life.

Game 2: Badge of Honour

Let's see what you remember about the *Good Samaritan Drug Overdose Act*.

Task: Connect the Big Bubble to the corresponding small bubble to finish the sentence.

1.
The Good Samaritan Drug Overdose Act applies to...

6.
some legal protection for individuals who seek emergency help during an overdose.

2.
The Good Samaritan Drug Overdose Act provides...

8.
legal protection against more serious offences, such as outstanding warrants and production and trafficking of drugs.

5.
who seek help during an overdose and anyone present when assistance arrives.

3.
The Act protects those...

anyone seeking emergency support during an overdose including the person experiencing an overdose (no matter the substance).

9.
legal protection only for those above 18 years of age.

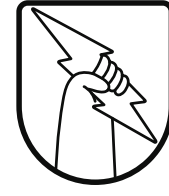

4.
The Act does not provide...

Answers: 1-7, 2-6, 3-5, 4-8

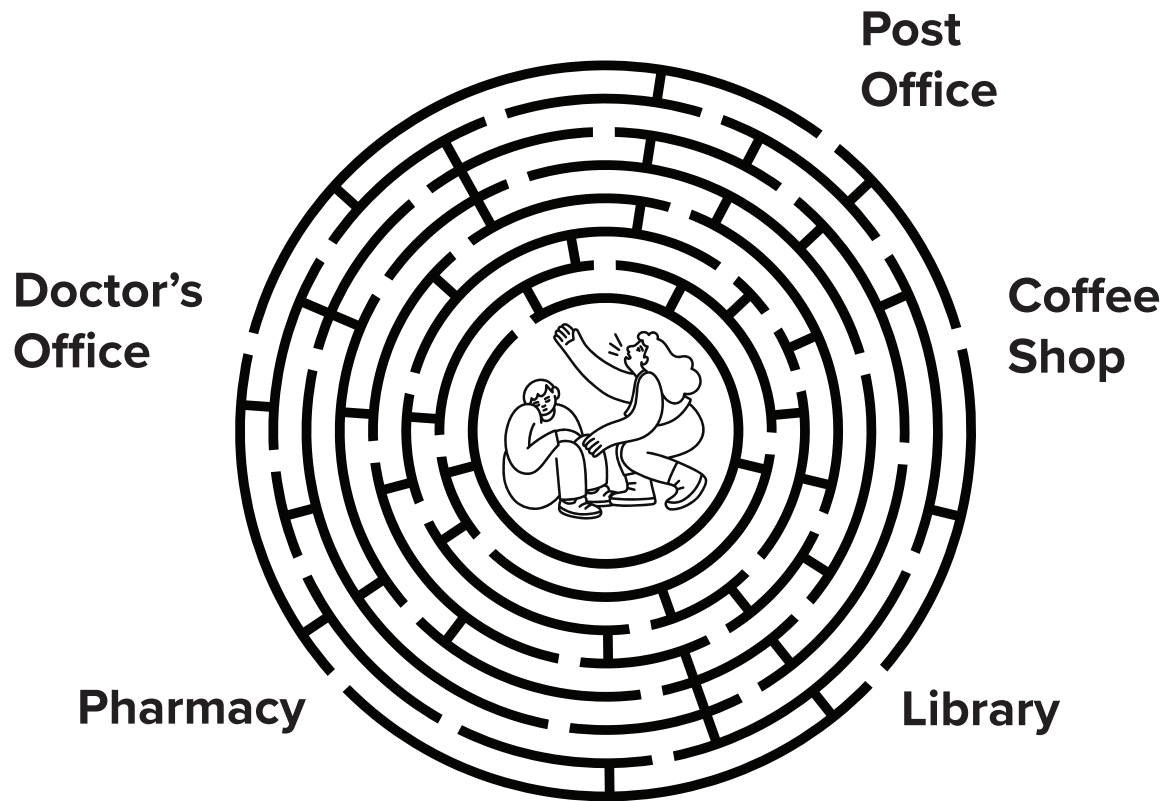

In the next activity we will earn our “Badge of Action” by matching locations that can provide naloxone kits. Remember! There are two types of naloxone (one administered by injection, the other by a nasal spray), but both are effective in saving someone’s life!

Game 3: Badge of Action

Where can you get naloxone when you need it?

Task: Find your way to the one place you can get a naloxone kit.

ANSWER: PHARMACY

Game 4: Badge of Distinction

Know the importance of giving naloxone and seeking further medical attention.

Task: Complete the quiz and show what you know.

1. TRUE FALSE

You are at a party, and you gave naloxone to someone experiencing an overdose. They will be fine now, and you can tell them to go sleep it off.

2. TRUE FALSE

In Canada, two types of take-home kits are available: naloxone nasal spray and naloxone injectable.

3. TRUE FALSE

You must be at least 18 years of age to receive a dose of naloxone.

4. TRUE FALSE

Naloxone is dangerous if not properly administered.

1) False – Naloxone only works temporarily. You should stay and help. Call 9-1-1 (or your local emergency help line).
2) True – Both naloxone nasal spray and naloxone injectable are available in Canada.
3) False – Naloxone is safe for all ages. You cannot use naloxone improperly and it does not create dependence.
4) False – It has no side effects even if the person did not take an opioid.
